

# Y12 A-level Art and Design Transition Work

You are going to present a series of photographs during the first lesson in September.

Your photographs should represent **'The Built Environment'** and your shoot(s) should consist of at least 20-60 photographs.

Consider the content and composition of your photos; *can you zoom in to capture more detail on some images; can you select an interesting angle; does colour, black and white or a filter help?*

*All of your photographs will be presented on a 'contact sheet'...*

*...showing your choice of favourites.*

Then categorise your favourite photos into 3 groups...

Repeated Images

Reflective surfaces

Decoration and Decay

...and present each category on a separate page of A4 (3 pages of photos in total, 5 to 11 photos on each). Include a title for each category.

Print your contact sheet and 3 pages of categorised photos ready for discussion.

***Make sure your photos are easily accessible in September (emailed/stick etc).***
